

Circular Economy Grant (CEG)

Things to Consider When Preparing the Preliminary Application

Set up your team

- Determine a project lead for your idea.
- Organize a project team – who will you need to help you?
- Would having a partner organization benefit your project?

Create a plan

- How does your idea or project meet the objectives outlined in the CEG guidelines?
- What are the important dates to accomplish your idea?
- Where will your project be located?
- What are you hoping to achieve through this project and how will you know you're successful?

Determine what resources you will need for your project

- What supplies or equipment will you need?
- Are there other staff or volunteers that are needed?
- What other resources might you need for the project to succeed?

Reach out with any questions and ask for help

- Are there any questions you still have about your application that haven't been answered?
