ANSWER KEY:

1. The oxygen lift system and our stretchers are both motorized to assist us with lifting.
2. Our ambulances use gasoline; some ambulances use diesel, but ours use gasoline. You can see it printed on the side of the unit in the video.
3. There are four seats in the back of the ambulance. ALL of them have three-point harness seatbelts.
4. There are FIVE sets of seatbelts on our stretchers. Two are for the legs, one for the waist, and two others cross for the upper body.
5. The word AMBULANCE is printed backwards on the hood such that it can be read in the rearview mirror of a car it may be driving behind.
6. The stair-chair is equipment we use to safely move a patient up or down stairs without having to lift them.
7. TRUE. There is one spare tire aboard every ambulance.
8. We use the computer in the cab as a mapping tool to reach our destinations for emergency calls as well as receive information about our calls from our Dispatchers.
9. There are FIVE exterior cabinets in total on our ambulances.
10. Our charges can hold two spare batteries at a time. These are for the heart monitor.
11. ORANGE!
