

Funding Information Management System (FIMS)

FIMS: Maintain Contacts, Roles and Access

myID: Maintain Accounts

This information is to be used by organizations that currently have a myID business account and use FIMS. It is the organization's responsibility to manage and maintain organization and user access in myID/FIMS. This document outlines how to:

- [Add a New User to FIMS and myID](#)
- [Update User Profiles in FIMS and myID](#)
- [Maintain FIMS Access and Roles](#)
- [Promote or Demote myID Accounts](#)
- [Delete or Hide a FIMS Contacts and Close myID Accounts](#)
- [Reactivate a Closed myID Account and Open a Hidden or Deleted FIMS Contact](#)
- [Terms and Descriptions: FIMS](#)
- [Terms and Descriptions: myID](#)
- [Terms and Descriptions: Business Licensing & Registration](#)

Add a New User to FIMS and myID

Adding new users is a two-step process which includes adding a FIMS Contact and creating a myID account. Both parts must be completed. For security purposes, it is best practice that each user has their own myID and FIMS account.

Who can add a new contact to FIMS?

- An Administrator, assigned Primary or Primary Delegate roles in FIMS can add contacts, assign, and change access and roles.

Who can add a new user to myID?

- An Administrator can create User and other Administrator accounts.
- If a contact is an Administrator in myID, they are automatically an Administrator in FIMS.

Add a FIMS Contact

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select Organization Profile on left menu.
- Select Contacts on top menu.
- Select Add New Contact.
- Complete fields: First Name*, Last Name*, Email* (this must be the same email address as used in creating the myID account), Subscribe to Notifications*, Title*, select Type of Access*, Phone, Fax, Other Phone (*=required field).
- Select Save Contact.

Add a myID Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List.
- Select Add Business Account.
- Complete fields: First Name*, Last Name*, Username*, Email address* (this must be the same email address as used in creating the FIMS contact), confirm Email Address. Select account type: User or Administrator (*=required field).
- Select Continue.
- The new user will receive an email with account details. The new user selects the link, enters their username and temporary password, and enters and confirms a new password.
- The new user can log into FIMS directly at fims.calgary.ca.

Update Profiles in FIMS and myID

A profile can be updated when contact information changes.

Who can update a contact profile in FIMS?

- A user can update their own profile.
- An Administrator, assigned Primary or Primary Delegate roles in FIMS can update another users profile.

Who can update a user profile in myID?

- A user can update their own profile.
- An Administrator can update another users profile in myID.

Update Own Profile in FIMS

- User logs into FIMS (fims.calgary.ca).
- Select My Profile on left menu.
- Select Edit My Profile.
- Update title, phone, fax or other phone fields. *
- Select Save My Profile.

* Name and Email Address is updated in the users myID account. See Update a Profile in myID below. MyID updates displays immediately and transfers to FIMS when the user logs out and back into FIMS.

Update Another Users Profile in FIMS

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select Organization Profile on left menu.
- Select Contacts on top menu.
- Select Contact to be updated.
- Update title, phone, fax or other phone fields. *
- Select Save Contact.

* Name and Email Address is updated in the users myID account. See Update Own or a Profile in myID below. MyID updates displays immediately and transfers to FIMS when the user logs into FIMS.

Update Own Profile in myID

- User logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Edit Profile.
- Update the required fields.
- Select Continue.

* MyID updates displays immediately. **Updated information will transfer to FIMS when the user logs out and back into FIMS.**

Update a Profile in myID

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List
- Locate user and select Make Changes.
- Selects Update Account.
- Select Proceed.
- Update the required fields. Name and email address can be updated in myID.
- Select Continue
- Select Close

* MyID updates displays immediately. **Updated information will transfer to FIMS when the user logs into FIMS.**

Maintain FIMS Access and Roles

Maintaining access allows an organization to manage who can view or enter or update information and Primary, Primary Delegate, Accounting and Board contacts in FIMS.

Who can change Access and Roles in FIMS?

An Administrator, assigned Primary or Primary Delegate roles in FIMS can change access and roles in FIMS.

Change Access:

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select the Organization Profile on left menu.
- Select Contacts on top menu.
- Select Contact to be updated.
- Change Access.
- Select Save Contact

Change Roles:

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select the Organization Profile on left menu.
- Select Contacts on top menu.
- For Primary, Accounting, and Board, select  **Change**.
- For Primary role, select a person from the drop-down menu.
- For the Primary Delegate, Accounting and Board roles, select  next to the name of the person being assigned to the role.
- Select Save.

Promote or Demote myID Accounts

Promoting a User account to an Administrator account allows the user to be able to open, update, and close accounts in myID and FIMS. If a user is an Administrator in myID, they will be an Administrator in FIMS. Demoting an Administrator account limits the user's ability to open, update and close accounts in myID and FIMS.

Who can promote a myID User Account to an Administrator account?

There are two ways for a User account to be promoted to an Administrator account: a User would promote their account to an Administrator account, or an Administrator can promote any User account to an Administrator account.

Who can demote a myID Administrator Account to a User account?

- An Administrator can demote their own or other Administrator accounts to a User account.
- In FIMS, the demoted contact will still show that they are an Administrator.

Promote own User Account to an Administrator Account

- User logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Promote to Administrator. Confirms and Selects Promote again.
- An email is sent to the Business License registered primary email address for approval with a link.
- The registered primary contact selects the link and cancels or approves the request.
- An email is sent to the requester indicating approval of the account promotion.

An Administrator promotes other User Account to an Administrator Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List.
- Locate user and select Make Changes.
- Select Promote.

Administrator Demotes own Account to User Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Demote to business user.
- Select Demote.

Administrator Demotes other Administrator Account to User Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List.
- Locate user and select Make Changes.
- Select Demote.

Delete or Hide FIMS Contacts and Close myID Accounts

Delete or Hide a FIMS contact and close myID accounts when a user is no longer required to log into or use FIMS.

- If just the myID User or Administrator account is closed, the user cannot log into myID/FIMS.
- If just the FIMS contact is deleted or hidden, the user can log into myID/FIMS. They will not have access to any information.
- In FIMS, an Administrator account can be hidden when the Administrator account is demoted to a User account in myID and the user logs into FIMS to transfer the myID demotion.

Who can delete or hide FIMS Contacts?

An Administrator, assigned Primary or Primary Delegate roles in FIMS can delete or hide a contact.

Who can close myID User and Administrator accounts?

- An Administrator can close their own and other User and Administrator accounts.
- A User cannot close their own or other users accounts.
- Accounts can be reactivated later.

Delete or Hide a FIMS Contact

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select the Organization Profile on left menu.
- Select Contacts on top menu.
- Locate contact to be deleted.
- Review contact attributes: is the contact assigned a role? **Remove the role.** Does the contact have full or read access? **Change access to None.** Is the contact an Administrator? **In myID, demote the Administrator account to a User account (see [Promote or Demote myID Accounts](#) above).** **After the demotion the user logs into FIMS so the demotion can be transferred to FIMS.** *
- Select  on top right of contact card.
- Select Delete. If the Contact cannot be deleted because they are linked to a myID account, or an application or report, select Hide.

* If a user is no longer with the organization and is unable to log into FIMS to transfer the demotion, an Administrator can log into myID (myid.calgary.ca) and update the former staff's user profile with a new email address, log into myID with the former staff's username and select forgot password. A password reset email will be sent to the new email address. Reset the password and log into FIMS (fims.calgary.ca) so that the demotion is transferred. The FIMS Contact can now be Hidden.

Close a myID User or Administrator Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List. All Administrators and Users associated with the myID business account are listed.
- Locate user and select Make Changes.
- Select Close Account. The account will be marked closed.

Reactivate a Closed myID Account and Unhide a FIMS Contact

Reactivate both closed myID account and unhide or add FIMS Contact.

Who can unhide or add FIMS Contacts?

- An Administrator, assigned Primary or Primary Delegate roles in FIMS can delete or hide a contact.

Who can reactivate closed myID accounts?

- An Administrator can reactivate other User and Administrator accounts.

Reactivate a Closed myID User or Administrator Account

- Administrator logs into FIMS (fims.calgary.ca) and selects myID Account on left menu or logs directly into myID (myid.calgary.ca).
- Select Account on top menu.
- Select Manage Business Users List. All Administrators and Users associated with the myID business account are listed.
- Locate user and select Make Changes.
- Select Reactivate Account and ensures FIMS contact information is correct.
- Provides user with username and FIMS URL: fims.calgary.ca.

Unhide a Contact in FIMS

- Administrator, Primary or Primary Delegate logs into FIMS (fims.calgary.ca).
- Select the Organization Profile on left menu.
- Select Contacts on top menu.
- Change Show Hidden from No to Yes. To show hidden contacts *
- Locate contact to be unhidden.
- Select  and select Unhide.
- Confirm by selecting Unhide.
- Change Show Hidden from Yes to No. To show unhidden contacts.
- Review the contact attributes: is the contact to be assigned a role? **Add the role.** Does the contact have full or read access? **Change access.**

* If the contact does not show in hidden contacts, follow the above instructions to [Add a New User to FIMS](#).

Terms and Descriptions: FIMS
