Section 5: Other Household (Family members) Information (not already in Sections 2.2 and 2.3)

There are only two circumstances where we require information about household* members and their income:

1. If anyone in the household is providing a Notice of Assessment, everyone 18 years and older within the household needs to submit an income proof. Refer to the Statistics Canada Low Income Cut-Off (LICO) table below for information about household income.
- OR**
2. If anyone in the household is applying for No Cost Spay/Neuter, Property Tax Assistance or the High-Speed Low-Cost Internet and other telecom services programs everyone 18 years and older within the household needs to submit an income proof.

If either of these two circumstances apply to you, income documents will be required for all adult household members. Household members should provide a proof of income found in Section 8: Income Verification if they have it, otherwise a Notice of Assessment will be required.

***What is a household?**

A household is **all** family members living in the same home related by blood, marriage, common-law or adoption (including children). This definition is provided by Statistics Canada, it accompanies the low-income table which is based on household income.

Your Total Income can be found on your Notice of Assessment on Line 15000. When adding up the total income amounts for all household members as defined above, the household total income amount should be at or less than the Statistics Canada, Low-Income Cut Off (LICO) rate if you are using a Notice of Assessment to apply to Fair Entry. See the table below for income thresholds based on the number of family members in your household.
