## Development Permit Application Requirement List

### New Single Family Rowhouse in the Developing Area

The following development permit application requirement list is only for permitted use, new single family rowhouses in the developing area. For all other rowhouse buildings, use the [New Rowhouse, or Addition to Existing Rowhouse, in the Developed Area Application Requirement List](#).

All the information necessary to evaluate and provide a timely decision on your application. Only applications that are complete will be accepted. Applications and materials submitted must be clear, legible and precise. All plans must be clear of any previous approval stamps and/or notations.

Plans submitted must be to a professional drafting standard and include the following:

- **contain a title block with information such as:**
  - address and legal description (plan; block; lot)
  - uses, project name
- **be sorted into sets:**
  - sets should be folded to a size no larger than 8-1/2" x 14" (21.5 x 35.5 cm)
  - each set must be stapled or taped together
  - sets may be accordion-pleated, provided they can be hole punched in the top left-hand corner
- **paper size:**
  - all plans submitted must be on the same sized paper
  - drawings are clear and legible
  - drawings must be contained on each page (one plan should not span two pages)

**NOTE:** Building and development permit applications must be submitted without personal information on any plans. Omitting this information will protect builders and tenants by reducing the risk of any personal information being wrongfully displayed, while also following the Province of Alberta’s FOIP Act. Failure to follow this requirement may result in an incomplete application. If you consider the information to be personal, do not put it on the plans.

The Development Authority may require additional material considered necessary to properly evaluate the proposed development (as stated in Part 2, Section 26(3) of the Land Use Bylaw 1P2007).

#### Processing Times and Deemed Refusals

Applicants are advised of their option under the Municipal Government Act to treat their application as being refused if the Development Authority fails to make a decision within 40 days of the application being accepted by the Development Authority, or at the expiry of an extended review timeframe specified by a time extension agreement between the Development Authority and applicant. [Time extension agreements](#) must be initiated by the applicant.

To exercise the “deemed refusal” option, an appeal to the Subdivision and Development Appeal Board must be filed within 14 days of the latest specified date for the review, or the right to an appeal is lost until such time as a decision is rendered on the application by the Development Authority.
